

Founded in 2018, Enerpoly is widely recognized for its zinc-ion battery technology, which offers a safer and more cost-effective alternative to traditional lithium-ion batteries. Zinc-ion batteries are emerging as a promising solution for various energy storage applications, from balancing power grids to portable electronic devices, and even ...

Arevon Asset Management has activated a 100 MW/400 MWh Saticoy battery storage system, powered by Tesla Megapacks, in Ventura County, California. The Saticoy battery's stored energy will be ...

CATL said it deployed an air-cooling system that is controlled by the battery management system. Conversely, the battery management system will "pre-store" electrons for use when starting the system or parts of it up on cold days. The system was also designed, built and then tested to withstand vibrations and shocks up to magnitude 8.

TotalEnergies has taken the final investment decision for a 100 MW /200 MWh battery storage project in Dahlem, North Rhine-Westphalia. This is the first project sanctioned by TotalEnergies from the pipeline of Kyon Energy, Germany's leading battery storage system developer, which was recently acquired by TotalEnergies in February 2024.
