

Will Algeria build a solar PV plant?

The state owned utility for electricity and natural gas distribution in Algeria has signed 19 contracts with local and international companies to construct solar PV plants. In making the announcement recently, the government said the project to produce 3,000MW of solar PV energy is part of its Renewable Energy Development Programme.

Who will fund solar projects in Algeria?

The Algeria government is to fund the solar projects. Sonelgaz has signed 19 contracts with local and international companies to construct solar PV plants across Algeria.

What are Algeria's New 3 GW solar tenders?

Algeria's new 3 GW solar tenders mark a major shift in its energy landscape, aiming to expand solar beyond remote areas and develop a local renewable energy sector. With high solar potential, the tenders reflect Algeria's commitment to reduce its reliance on gas and boost domestic solar capacity.

Where are solar panels made in Algeria?

Alongside Zergoun, the manufacturer Laguna Solaire has 200 MW of annual capacity for solar panel production in Algeria. The production plant of Algerian telecommunications and renewable energy company Milltech has a facility in Mila, in the east of the country, with a production capacity of 100 MW for M3-based modules.  
Manufacturing hub

How big will Algeria's solar projects be?

The projects will range in size from 80 MW to 220 MW. The Algerian government has released a list of the developers it has selected for 3 GW of solar tenders it finalized earlier this month. It allocated the capacity as part of a 1 GW scheme launched in late 2021 and a 2 GW tender initiated in February 2023.

Why are Algeria's solar tenders so important?

With high solar potential, the tenders reflect Algeria's commitment to reduce its reliance on gas and boost domestic solar capacity. Algeria -- a nation traditionally dependent on gas -- is set to take significant strides in solar energy through two large-scale solar tenders with a combined capacity of 3 GW.
