

Saudi Arabia is located in Western Asia and is the birthplace of Islam. It has the world's second largest oil reserves and the sixth largest natural gas reserves. The government of the Kingdom is currently looking to develop other sectors to lessen the country's dependence on oil. An oil-based economy makes Saudi Arabia one of...

A British Colony until 1973, The Bahamas is an independent country made up of 700 islands. It is now one of the wealthiest countries in the West Indies due to tourism and offshore banking. Though blessed with tourism-friendly landscape, the economy of The Bahamas has shrunk at an average pace since 2007. Weakening tourism, banking...

HOME. ABOUT US.

Lesotho is a small, landlocked country in Africa. As there has been little development, the country is still dependent on South Africa for most of its necessities. Lesotho relies on imports of basic necessities from South Africa, and families heavily depend on remittances from relatives working there. However, Lesotho is the largest supplier of garments...

The United States of America is the world's most powerful country. It has the world's largest economy characterized by a highly-developed infrastructure, rich natural resources and advanced science and technology. Its military, culture and politics are very influential on a global scale. Mining, oil, natural gas, manufacturing, and agriculture, among others make up the USA's...

Serbia is located at the heart of Central and Southeastern Europe. After emerging from wars that dates back to WW1, the country has pursued a path of democracy and has made tremendous political and economic progress. Agriculture and manufacturing, along with a little of tourism, drive Serbia's economy. Largely reliant on exports and foreign investment,...

H.E. Waheed Ali Rasheed (center), Governor of Aden, Yemen inaugurated the power plant together with Khalil Abdul Malik (6th from left), Director General of (PEC) Public Electricity Corporation, Steven Meyrick (4th from right), Altaaqa Global's Managing Director and Peter den Boogert (5th from left), Altaaqa Global's

GM for Business Development - - Aden, ...

Moldova gained its independence after the fall of the Soviet Union. Currently, the country is implementing sound policies to boost its economy. Moldova has limited natural resources, but it is blessed with a good climate and arable land. Agriculture is the biggest contributor to the economy. Present efforts explore other viable sectors to invest in...

Spain was a former world power in the 16th and the 17th centuries, with territories all over the world. In fact, owing to its vast reach, Spanish is the second most spoken first language in the world. It is now one of the world's most vibrant countries, with a very strong economy. The thirteenth largest...

Altaaqa Global is your trusted global energy partner. We provide cost-effective turn-key multi-megawatt power solutions to a diverse range of sectors, including IT, data centers, mining, oil & gas, manufacturing, heavy & process industries, ...

Qatar is located in Western Asia. It is one of the region's wealthiest country, owing to its reserves of oil and natural gas. The local population is dwarfed by the number of foreign workers. Before oil was discovered, pearl hunting and fishing were Qatar's main economic contributors. Now, oil and natural gas has taken over...

After centuries of occupation by other countries, Estonia attained independence after the collapse of the Soviet Union. It is now a parliamentary republic and has the highest GDP per person among the former Soviet republics. Being a member of the EU means Estonia is a high-income economy. Technology, energy (renewable wind energy), construction and other...

Formerly occupied by France and then Britain, Dominica is located on the Caribbean. The island is characterized by an almost unspoiled natural beauty, which makes it a potential prime tourist spot. The export of bananas has been Dominica's primary industry. The Government, in addition, has given focus to ecotourism, offshore financial banking and geothermal energy...

At Altaaqa, we believe diversity fosters success. We don't just value difference, we actively seek out and embrace it. Our diverse workforce allows us to deliver products and services that assure and engage our customers. By nurturing a ...

Poland is the ninth largest country in Europe. After being occupied by Germany and the then-Soviet Union, it gained full independence prior to the collapse of the latter, owing to massive protests spurred by demands for free elections. Poland's economy is one of the fastest growing in the EU. Banking and agriculture are the strongest...
