

Hybrid inverter, is suitable for residential and light commercial use, maximizing self-consumption rate of solar energy and increasing your energy independence. Add to Inquiry Contact Us
datasheet_sun-3-6k-sg04lp1_230626_en

-Rated Power 5000VA/5000w -System DC Voltage 48VDC -Parallel Option Yes, up to 6 units -Monitoring Option Wifi or GPRS -AC Voltage 220V-230V-240VAC -Surge Power 10000VA -Peak Efficiency 93%
-Waveform Pure Sine Wave

-Pure sine wave -Power factor 1.0 -PV input Voltage 30Vdc-160Vdc -Built-in MPPT 60A -Lithium Battery Activation -Compatible work with LifePO4 Battery via RS485 -Detachable dust cover for harsh environment
-Support multiple output priority: UTL,SOL,

The Deye 70-110K grid-connected inverter is suited for medium and large-scale commercial rooftops and ground-mounted solar PV system in which reliability and stability are important. DEYE On-grid Inverter Three Phase 100K, On-grid Inverter

- Nominal Voltage 51.2 V - Working voltage 43.2-57.6V - Nominal Capacity 200AH - Energy 10240Wh - Communication CAN/RS232/RS485 - Resistance $\leq 30 \text{ m}\Omega$ - Efficiency $\geq 96\%$ - Module parallel Up to

-Rated power at 6KW -2 strings of MPP tracking -500VOC high PV input voltage -Max PV.array power 8000watt -ATS built-in to switch automatically between grid and generator -Built-in anti-dust kit for harsh environment -MC4 PV input connector -WiFi/

-Higher Durability Higher Durability. -The multi-busbar design can decrease the risk of the cell micro-cracks and fingers broken. -High conversion efficiency and more power output per square meter -PID Resistant Tested in accordance to the standard IEC 62

-Higher Durability Higher Durability. -The multi-busbar design can decrease the risk of the cell micro-cracks and fingers broken -High conversion efficiency and more power output per square meter -PID Resistant Tested in accordance to the standard IEC 628

It was home to a 1GW lignite thermal power plant which Endesa closed in 2020, called Teruel, the name of the province it and Andorra are both in. The proposed project will combine wind, solar, battery energy storage ...

-Rated power at 6KW -2 strings of MPP tracking -500VOC high PV input voltage -Max PV.array power 8000watt -ATS built-in to switch automatically between grid and generator -Built-in anti-dust kit for harsh

environment -MC4 PV input connector -WiFi/G

-N-type, Components have better reliability and lower LID/LETID attenuation -Better light trapping and current collection to improve module power output and reliability -Tested according to IEC62804 standard, PV module to prove that it has a strong PID

- Dual outputs, for smart load management. - Maximum PV input current increases to 27A. - Wide PV input voltage range 90VDC ~ 450VDC. - Status indication with RGB lights. - Built-in Wi-Fi for mobile monitoring (Android/iOS App is available). - Support

-Safety and long lifespan, high efficiency and high power density -Support high discharge power. IP20, natural cooling, wide temperature range: -20? to 55? -Modular design, easy to expand, Max. 64 units in parallel, Max. capacity of 340kWh

At SUD we have a delegation in Andorra, a country where we have been installing panels for self-consumption for years. It could not be otherwise a country where caring for nature is one of the keys to its economy, where the ...

- LiFePO4 Safe Battery Chemistry - Rack Mounted and Parallel Connection - Intelligent Build in BMS - Compact Design and Safety Protection - Easy Installation and After Sales Service - Backup power supply - Communication base station Digital ce

Endesa, a través de su filial Enel Green Power España (EGPE), ha comenzado la construcción de su primer proyecto solar situado en el perímetro de la central térmica de Andorra, en concreto, una planta ...
