So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product.

Energy Systems Limited, Kampala, Uganda. 329 likes. Energy Systems Limited is a Private Limited company in Uganda Dealing in Solar Related products. We Supply, Install and Maintain Solar Systems.

I joined Swire Energy Services Nig Limited in October 2011 as a fresh university graduate looking for something to get by. I was offered an opportunity at Swire Energy Services Nig. Ltd. (then Prime Leasing West Africa Ltd.) to relieve an employee at the reception where my main duties were to welcome visitors and take calls.
