Ray Builds Cool Stuff's videos on the Apexium 280 battery box and other battery builds have been very helpful to me. I just got some MG 847 in the mail, and plan to use it to reduce resistance in the connections. I plan to sand the contacts WITH the MG 847 to prevent any new oxidation from forming immediately after the sanding.

My kit is branded Apexium. How can I tell which version? Branded "apex 48200" on the BMS box. Reactions: Frank Smith. houseofancients Solar Wizard. Joined Nov 29, 2019 ...
