Installation costs vary depending on the electrical system and type of installation. It may cost SGD 1500-3500 for standard installation service (excluding the Wall Connector) with total distance up to 30m.

This depends on the charger you're using and the battery capacity of your battery powered smart doorbell. Generally, the 1080P or 2K wireless battery doorbells use a 5000mah or 6500mah battery which may take about 6 hours for a full charge if you use a 5V/1A USB charger, while about 3 hours if using 5V/2A chargers.

DELTA 2 expands up to 2048Wh with smart extra battery, keeping your home powered on in any emergency. DELTA 2 and its Extra Battery charge and discharge in unison. Recharging from portable solar panels, AC outlets, or our Smart Generator is easy. Charge up with DELTA 2 from 0-80% in 80 minutes and 0-100% in 130 minutes with AC input.

However, today, even in state of art battery products silicon content delivers only a minor increment in their rated capacities. This is because the net silicon content in battery anodes remain limited to single-digit percentages by weight due to its inherent instabilities arising from swelling and subsequently poor capacity retention.
