Citicore Renewable Energy Corp is a company that is pure renewable energy developer and operator of solar, run-of-river hydro, and off-shore wind energy platforms in the country. Its renewable energy portfolio consists entirely of operating solar power plants.

Citicore Renewable Energy Corp. on Tuesday broke ground on its P21-billion, 680-megawatt solar power plant in Tuy, Batangas, becoming the largest among the company's renewable energy portfolio. It is also the biggest RE project to be constructed in Batangas province. It will be constructed in two phases over two years and is expected to ...

The raised proceeds will go to partially fund the renewable energy company's capital expenses and will cover general corporate needs. A portion of the fresh capital will support the development of solar and battery energy storage projects supporting CREC's goal of adding 1 GW of ready-to-build or under-construction solar capacity to its portfolio each year through 2027.

Milbank LLP advised the underwriters and bookrunners in connection with the initial public offering of Citicore Renewable Energy Corporation (CREC), a leading pre-play renewable energy platform and the second largest solar energy generator in terms of installed solar capacity in the Philippines.

The first involves Citicore Renewable Energy Corporation (CREC), a renewable energy producer in the Philippines that manages a diversified portfolio of renewable energy generation projects, and Evolution Data Centres, a sustainable hyperscale and AI data centre ...
