What is the power rating of a Bluetti solar generator?

Bluetti shows that batteries in solar generator kits can reach a capacity comparable to standard home battery systems such as Powerwall. At the same time, they are much easier to set up. Still, Powerwall and alternatives last longer and their power ratings are generally higher. The maximum power rating of a single Bluetti station reaches 5000 W.

How many kWh can a Bluetti power station run?

Bluetti power stations range in size from a little over 250 Wh to over 5 kWh. These are modular models that can be paired with several batteries. At full capacity, such a power station can reach up to 18 kWh capacity. Using two stations you can get to 36 kWh capacity which can be enough to keep your home powered for a few days.

How long do Bluetti solar generators last?

Bluetti solar generators last for 5-10 years. LFP batteries that some of their stations have can withstand over 2,500 charge cycles. The company usually offers a 2-year warranty on their products and some products come with 5-year coverage. Given the complexity of devices, it's hard to expect more and the competitors offer similar guarantees.
