

Can I get the locker halfway through the mountain

Should I stay overnight if I climb a mountain?

It is compulsory and advisable to stay overnight at mountain accommodation during your climb. This is for safety reasons and to prevent any possible injuries. However, should an emergency arise, your mountain guide will assess your condition and decide whether to activate the Mountain Search and Rescue Unit (MOSAR) personnel.

Should you climb a mountain at lower altitude?

Usually, you'll choose an easier mountain at lower altitude for your first proper expedition, but maybe you're an accomplished rock climber and up for a route that requires you to scale sheer cliffs on the way. In this section, we're not going into all the details - we're just giving an overview of the skills you might need.

Is the mountain track a good route?

The Mountain Track is technically the easiest route, but the fierce weather and serious navigational obstacles near the summit mean you must be an experienced walker with good map and compass skills to attempt it.

Is it easier to walk down a mountain than up?

It's important to stay as focused on the way down as you did on the way up. Usually, the way down a mountain is slightly easier than the way up, but you can't always bank on this. When walking down steep slopes, you run the risk of ankle sprains and knee injuries if you're not focused on using proper technique.

How do I get to Lochan Meall & t-Suidhe?

From The Visitor Centre it climbs easily across the hillside then does a loop around to the Lochan Meall and t-Suidhe (Halfway Lochan). This stage is fairly straightforward and gets you warmed up perfectly with ever-improving views providing entertainment as height is gained.

How long should I walk before climbing a mountain?

A routine of walking up hill/staircase for at least 2-4 weeks before the actual climb should be adequate as a basic training preparation for this mountain climb. 2. What do I need to bring?
