

How to install solar panels?

Make space for the solar panel accessories (solar inverter, cables and solar batteries, if desired), for instance in a plant room 4. Plan a day for installation 5. Erect the scaffolding (this can be done by your supplier or by a company you organise) 6. The solar panel mounts will be installed 7. The professionals will install the solar panels 8.

Can solar panels be added to a new build?

For new builds and self-builds, you'll likely be looking at solar photovoltaic panels and/or solar hot water (solar thermal) systems. Instead of looking at options to traditional heating systems, solar panel installations can be added to new builds to improve the EPC and overall energy efficiency.

Should you use solar panels when building a new home?

Today, when building a new home, it is required that you include energy saving measures and offsets such as cheap new build solar panels. These include solar panels or solar thermal systems. Solar panels do not need to detract from the attractiveness of your new build.

Is it a good time to install solar panels?

Hopefully you feel more confident about the process of installing solar panels. With 69% of people telling our National Home Energy Survey that they're likely to buy or rent a home with solar panels, now is a great time to go solar.

Do solar panels need to be wired before installation?

Without fastening them at first, the installers will place the solar panels onto the mounting system. Once the correct angle is achieved, the panels are fastened with bolts. Your solar panel will most likely be pre-wired before installation, meaning that the wiring process can be skipped.

Do solar panels need a battery?

Some people also decide to pair their solar panels with a solar battery, which will store excess solar energy to be used on cloudy days or during the night time. If you have a solar battery in your system, the battery also needs to be connected to the inverter at this point. Find out more about how solar batteries are installed on our page.
