How do you store a laptop?

Simply storing it in a locker (preferably locked) or place it in a laptop sleeve or laptop bag and put in your wardrobe or storage room. If it's a work laptop, check with your IT department on the policy for securing your laptop. If playback doesn't begin shortly, try restarting your device.

Where should a laptop be stored if you don't have a security cable?

You may not own a security cable yet, in the interim, it's a wise decision to store your laptop in a place that's out of view. Think about it this way - if a person looked in your window or walked into a room, they should not be able to spot the laptop when it is stored. This doesn't need to be an extensive ordeal either.

Where to store laptop in cold weather?

Where to store laptop in cold weather: Opt for storing your laptop in rooms that are heated. Rooms should be well-ventilated and insulated. Avoid storing laptops in windy rooms in cold weather which can further drop the temperature. Padded laptop bags can minimize the cold impacting on the laptop. Where to store laptop in hot weather:

Should you stack laptops on each other?

However, stacking laptops on each other is a poor choice for a multitude of reasons. First, the weight of the laptop pressing down on the laptops beneath it could damage delicate components of the laptops being sandwiched beneath it. Secondly, if the pile of laptops is too high, they are subject to falling and becoming damaged.
