At Clayton Power we create innovative mobile power solutions which help our customers to adapt to greener energy solutions. Through technology leadership and sparring with our customers, we find solutions which challenge the climate changes, achieve improved energy efficiency and reduce the need for fossil fuel.

Compact power supply without idling in the vans of Aarsleff Rails . Aarsleff Rail has chosen to install a Clayton Power LPS power supply in their vans. The LPS is a smart and environmentally friendly alternative to traditional inverter/battery systems, as it does not require the vehicle to idle to maintain power supply.

Clayton Power A/S was founded in 2000 and is based in Denmark, Odense. We always put our customers first, making sure we consistently meet their needs and exceed their expectations. We are today represented in more than 18 markets across the EU. Company purpose: Clean and efficient power anywhere

Clayton Power are an innovative and exciting company hailing from Denmark. They have been producing new and exciting options to be able to provide power even in remote areas since 2000. The units are designed to be hard-wired vehicle power stations, you can be assured that even when you are off the beaten track, these power systems will have ...
