

What is Corre energy's energy storage solution?

Corre Energy's compressed air energy storage product provides a stable supply of energy storage, which exceeds the capacity of batteries. The agreement was signed in Denmark where Corre Energy is currently deploying its energy storage solution in its Green Hydrogen Hub project.

Are the Pitcairn Islands Green?

Pitcairn Islands, a group of five islands with a total area of 47 km² and which constitute one of the most remote archipelagos in the world, turn to safer, greener energies that best meet the needs of the population. Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy.

Can solar energy replace fossil fuels on Pitcairn Island?

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

How does Corre energy support the transition to net-zero?

To read more: [Cookie Policy](#) Corre Energy is supporting the transition to net-zero by developing and commercialising Long Duration Energy Storage projects and products.
