

What is Dyness dl3.6?

DYNESS DL3.6 is low-voltage energy storage product which adopts high safety LFP technology. With 3.6 kWh each, it can support up to 180 kWh with 50 modules connected in parallel. It also supports remote update & easy monitoring. Meet this efficient product with perfect performance. Max. Power Charge/Discharge Current Charging Temp. Range

Is Dyness b25100 a good battery?

Dyness B25100 is a good alternative for lead acid battery and a perfect match for off-grid applications in areas with limited or no grid access. It is scalable from 2.56 kWh to 40.96 kWh (up to 16 units in parallel), offering you sufficient capacity to meet different requirements. Max. Power Charge/Discharge Current Charging Temp. Range

What is Dyness B3?

With a 19" inch modular design and built-in intelligent BMS protection system, Dyness B3 enables adopts LiFePO4 technology for maximum safety and longer cycle life. Max. Power Charge/Discharge Current Charging Temp. Range Discharging Temp. Range DYNESS DL3.6 is low-voltage energy storage product which adopts high safety LFP technology.

What is a Dyness battery?

Dyness batteries are designed for power backup operations and off-grid solutions. Dyness solutions covers various scenarios, including indoor & outdoor use, low voltage & high voltage packs, and various capacity options from 2.4 kWh to more than 30 kWh etc., to diversify battery pack design.

Where is Dyness based?

Dyness is located in China, owning three manufacturing centers in Taizhou and Suzhou. We have 550+ employees, and a R&D team of 150+ people with more than 10 years experience in this industry, who has deep understanding for energy storage and global carbon neutrality.

How Dyness battery system works?

User can monitor battery SOC, energy, etc. in real-time via website as well. Dyness battery system integrates a smart self-control logic to maximize solar energy self-consumption, thus to reduce grid consumption. Solar powers house loads first, and keep its production ability to charge battery, which will be used to supply home when solar is weak.

DL5.0C Dyness DL5.0C verfügt über ein wirtschaftliches Design und ist maßgeschneidert für private und kleine gewerbliche Anwendungen. Dieses LFP-Batteriemodul unterstützt Remote-Upgrade und APP-Überwachung und bietet mehrere Installationsmethoden. Es ist von 5,12 kWh bis 256 kWh skalierbar (max. 50 Module parallel) und bietet ...

DYNESS DL5.0C adopts economic design, and is tailor-made for residential & small commercial application. This LFP battery module supports remote update and APP monitoring,and provides multiple installation methods.

DYNESS DL5.0C adopts economic design, and is tailor-made for residential & small commercial application. This LFP battery module supports remote update and APP monitoring,and provides multiple installation methods. It is scalable from 5.12 -256 kWh (max. 50 modules in parallel), providing various energy storage options to meet different requirements.

DYNESS La bater&#237;a DL5.0x est&#225; hecha a medida para C& I residencial y ligero en el mercado sudafricano. La DL5.0x tiene una alta tasa de descarga de 1,5C, lo que proporciona a los usuarios una mayor flexibilidad cuando utilizan cargas de alta potencia fuera de la red. Esta bater&#237;a LFP admite la actualizaci&#243;n remota del software y la supervisi&#243;n mediante APP, y ...

DYNESS Lithium Battery DL5.0C 5.12 kWh 51.2v DYNESS DL5.0C adopts economic design, and is tailor-made for residential & small commercial application. This LFP battery module supports remote update and APP monitoring, and provides multiple installation methods. It is scalable from 5.12 -256 kWh (max. 50 modules in pa

Dyness DL5.0C are o capacitate de stocare de 5.12 kWh pe 48V si este ideala pentru inlocuirea bateriilor vechi si grele cu plumb acid. Acesta adopta tehnologia LFP (Litiu-Fier-Fosfat) pentru siguranta maxima si un ciclu de viata mai lung. Bateria Dyness DL5.0C este stivuabila in module de 5.12 kWh pana la un maxim de 256 kWh sau 50 de module ...

DL5.0 has a larger capacity design for residential and commercial storage applications. Up to 50 batteries can be connected in parallel to meet the needs of more users. The optional OTA ...
