

Eastern Kentucky University is a nationally recognized public university located in Richmond, Kentucky. Established in 1874, EKU strives to make quality education available to everyone. A brick-and-mortar accredited institution, EKU began offering online degrees in 2006 and continues to service all students with our on-campus offerings. ...

Located in Essex, England, this project marks Eku Energy's first commercially operational battery storage project in the UK. The deployed storage system features a rapid response capability of 350 ...

EcoDirect designs and supplies solar + battery projects in Guam, Saipan, Tinian and Rota. Our team has the tools and experience to get your next project designed and delivered. Request a ...

Battery storage is a critical enabler of the clean energy transition, helping to cost-effectively integrate renewable energy at scale while providing vital flexibility to increase the resilience and reliability of electricity systems globally. ... Eku Energy is a specialist energy storage business established to meet the growing need for ...

Macquarie Asset Management's Green Investment Group has today announced the launch of Eku Energy, a global battery storage platform; Upon completion of the launch in all proposed jurisdictions, Eku Energy will have 190 MWh of flexible storage capacity under construction and a further development pipeline of more than 3 GWh across the United ...

Eku Energy has partnered with the Australian Capital Territory (ACT) Government to deliver a 250 megawatt (MW) / 500 megawatt-hour (MWh) battery energy storage system (BESS). Located at Williamsdale in the south of Canberra, the battery will store enough renewable energy to power one-third of Canberra for two hours 1 during peak demand periods ...

Eku said the Rangebank battery is the second largest in Victoria - behind Neoen's 300 MW/450 MWh Victoria Big Battery - but the new site is sure to be overtaken soon. Projects in the pipeline include an approved 350 MW/700 MWh site being developed in western Victoria by Melbourne-headquartered ACEnergy .

Global energy storage developer Eku Energy is due to commence construction shortly on two new battery storage projects in the UK. Together the two projects in Basildon, Essex and Loudwater, Buckinghamshire have an installed capacity of 130MWh and will provide vital flexibility to support the UK electricity system, enable more renewable generation and ...

10-year contract: Trina Storage and Ekü Energy have a 10-year agreement to maintain the system's performance, emphasizing their commitment to long-term energy solutions. Market impact: The project reinforces Trina Storage's leadership in energy storage and lays the groundwork for further expansion into the European market, supporting the UK ...

Canberra, AUSTRALIA - 6 November 2024 - Global energy storage specialist, Ekü Energy today announced reaching Financial Close for its Williamsdale Battery Energy Storage System (BESS) located in the ACT. The 250MW / 500MWh project will comprise of Megapacks supplied by Tesla Energy and will support Canberra's energy security.

The Hirohara Battery Energy Storage System (BESS) is located in Oaza Hirohara, Miyazaki City, Miyazaki Prefecture. The 30MW/120MWh battery is Ekü's first in Japan, and the company has agreed a 20-year offtake agreement for the project with Tokyo Gas.
