

Who is Enercon?

You have successfully submitted your enquiry. Someone from our company will respond ASAP Enercon is a renewable energy equipment company that manufactures and supplies wind energy converters (WEC). It produces components of the WECs including annular generators, inverters, cast components, rotor blades, towers and machine houses.

When was Enercon founded?

Enercon was founded by Ed Tangel and Bill Rogers in 1975. They formed the company to provide switchgear and control systems for the worldwide engine-generator set marketplace. Enercon had immediate success in the Middle East which continued their export focus.

What makes Enercon a good company?

ENERCON is a pioneer of wind energy technology, a company that treats its business partners as equals and an attractive employer in a future-oriented sector all rolled into one.

Who makes Enercon wind turbines?

Founded in 1984, Enercon offers turbine models in the nominal power range from 2 MW to 6 MW. One of the largest wind farm projects currently under construction by the company is the 816-MW Horizonte wind farm located in the Atacama Desert in Chile. The project was originally contracted with Chilean utility Colbun SA back in 2019.

Who owns Enercon?

In 2012, ENERCON founder and owner Dr Aloys Wobben transferred all his shares in the company to the Aloys Wobben Stiftung, a trust which ensures the business remains independent and has a corporate strategy that is focussed on the future.

Will Enercon supply a new wind turbine in Vietnam?

As part of the agreement, Enercon will supply its new E-160 EP5 E2 wind turbine. This features a 5.5MW direct-drive permanent magnet generator, capable of generating more than 21.5GWh of energy. Ea Nam wind farm will also use Enercon's 4MW class E-138 EP3 E2. A total of 98 units of these will be installed throughout Vietnam next year.

The initiation of the new wind farm's construction is scheduled for late 2024. Credit: Leonid Sorokin/Shutterstock. Enercon has secured a contract to deliver and construct 28 E-138 EP3 turbines for Iceland's first large-scale wind farm, with a total capacity of 120MW. State-owned energy supplier ...
