

Where can I find information about energy in South Sudan?

Find relevant data on energy production, total primary energy supply, electricity consumption and CO₂ emissions for South Sudan on the IEA homepage. Find relevant information for South Sudan on energy access (access to electricity, access to clean cooking, renewable energy and energy efficiency) on the Tracking SDG7 homepage.

What are the energy indicators for South Sudan?

(Sustainable Development Goal indicators 7.1 energy access, 7.2 on renewable energy and 7.3 on energy efficiency). Find a summarized energy profile for South Sudan (Atlas of Africa Energy Sources). Climatescope 2019 lists the clean energy policies and investments for South Sudan.

Why is South Sudan facing a serious energy crisis?

South Sudan faces a serious energy crisis due to a number of factors, including devastating conflicts (e.g. 1955-172, 1983-2005 & 2013-present) and reliance on the fossil fuel source. The country has the lowest energy consumption rate in Africa and the highest cost of producing energy (World Bank, 2016).

How much money does South Sudan make from oil?

civil war that started in 2013, oil production generated \$13 billion in revenue. billion in terms of revenue (Mednick, 2018). There are also proven reserves Sudan and Sudan share in their borderlands. Those reserves do represent an Energy Information Administration, 2018). Renewable energy sources are part of South Sudan energy's ecosystem.

What is South Sudan's energy potential?

Despite being a young nation, South Sudan has an enormous and diverse energy potential, ranging from nonrenewable energy sources to renewable energy sources. It holds not only a huge amount of oil resources but also has considerable potential in solar energy, wind energy, hydropower, geothermal energy.

Does South Sudan rely on oil?

South Sudanese economy, which is entirely dependent on oil revenues. humanitarian disaster (Adeba & Enough Project, 2019:1). energy security (Mai et al., 2016:11). East-African countries rely on each other to guarantee their oil supply. South Sudan mostly possesses crude oil, and Kenya to maintain its national energy supply.
