

What is a Genesis XE battery?

Genesis XE batteries are manufactured with Thin Plate Pure Lead (TPPL) technology, packing enormous power in a smaller footprint, making them ideal for custom applications where space is of the utmost importance. Genesis XE batteries are found in alternative energy applications such as solar and wind power, and Hybrid Electric Vehicles (HEV).

What are Genesis EP batteries used for?

Genesis EP batteries are found in applications as diverse as electronics, medical equipment, telecommunications, renewable energy, computer backup and Uninterruptible Power Supply (UPS) applications.

How long do Genesis XE batteries last?

Genesis XE batteries also feature a 2-year shelf life at 77°F (25°C) and superior deep discharge recovery. Genesis XE batteries manufactured with TPPL, packing enormous power in a smaller footprint, ideal for custom applications where space is of utmost importance.

Who manufactures EnerSys batteries?

EnerSys is the largest industrial battery manufacturer in the world manufacturing and assembling batteries at facilities worldwide for customers in over 100 countries. EnerSys reserve power batteries are marketed and sold principally under the PowerSafe, DataSafe, Hawker, Genesis, Odyssey, Varta and Cyclon brands.

What is EnerSys reserve power division?

EnerSys' Reserve Power Division offers a complete product line of flooded and valve regulated lead acid (VRLA) batteries for applications such as telecommunications, UPS, utility/switchgear, security, emergency lighting, general electronics, medical, aviation, military and sport and leisure.

Is OSI batteries an authorized distributor & value add Center for EnerSys' reserve power?

OSI Batteries is an Authorized Distributor and Value Add Center (VAC) for EnerSys' Reserve Power. EnerSys is the largest industrial battery manufacturer in the world, operating manufacturing and assembly facilities worldwide for customers in over 100 countries.

Genesis' EP Batteries Premium high performance Genesis' EP batteries are manufactured with Thin Plate Pure Lead (TPPL) technology, packing more power into a smaller footprint. Genesis EP batteries are suitable for a wide range of physically demanding applications and safe for human environments such as offices and hospitals. Request a Quote

The Genesis' TD range of Valve ... Trademarks and logos are the property of EnerSys and its affiliates unless otherwise noted. Subject to revisions without prior notice. E.& O.E. Contact: Battery Terminal Layouts

Publication No: APAC-EN-Genesis-TD-RS-02-0822 Nominal Capacity (Ah) General Specifications

The EnerSys Genesis G16EP is found in applications as diverse as electronics, medical equipment, telecommunications, renewable energy, and providing an Uninterruptible Power Supply (UPS). In addition to its superior performance characteristics, the Genesis EP battery non-spillable design allows for mounting in any position (except inverted) and ...

DataSafe XE Batteries . Engineered to meet the evolving needs of today's datacenters, DataSafe XE batteries support high-rate discharge runtimes optimized for less than five minutes. Featuring advanced Thin Plate Pure Lead (TPPL) technology, DataSafe XE batteries are an ideal solution for new hyperscale datacenters where reliability, operating costs and space ...

Genesis; NP Las baterias Genesis ; NP cuentan con rejillas gruesas y robustas de plomo-calcio para ofrecer un rendimiento fiable durante años. Su diseño de alta densidad energética, su carcasa sellada en fábrica y su construcción a prueba de fugas garantizan que estas baterias selladas de plomo-calcio recargables sean extremadamente fiables y casi no necesitan ...

Genesis; NP Genesis ; NP batteries feature heavy-duty thick lead calcium grids for years of dependable performance. The high energy density design, factory sealed case and leak proof construction ensures that these rechargeable sealed lead acid batteries are extremely reliable and virtually maintenance-free.

EnerSys Genesis XE60 thin plate pure lead battery excels in demanding environmental and cycling applications such as: Alternative energy applications, e.g. solar and wind power Hybrid electric vehicles (HEV) XE60 Performance Features:Wide operating temperature range: -40°C to 45°C300+ full depth of discharge cyclesHigh rate charge and discharge2 year shelf life at 25°C ...

Akumulatory Genesis EP Wysokiej jakości akumulatory Genesis EP są wykonane w technologii cienkich płyt z czystego ołowiu (TPPL), co zapewnia większą moc na mniejszej powierzchni. Akumulatory Genesis EP są odpowiednie do szerokiego zakresu wymagających fizycznie zastosowań i są bezpieczne dla środowisk ludzkich, takich jak biura czy szpitale.

Baterías Genesis EP Las baterías de alto rendimiento Genesis EP se fabrican con la tecnología de placas delgadas de plomo puro (TPPL) para ofrecer más potencia en menos espacio. Las baterías Genesis EP son adecuadas para numerosas aplicaciones físicamente exigentes y son seguras para entornos humanos como oficinas y hospitales.

Genesis NP Les batteries Genesis NP sont dotées de grilles épaisses en alliage plomb-calcium afin de présenter des performances fiables pendant des années. Grâce à leur densité d'énergie élevée, leur bac scellé en usine et leur construction robuste, ces batteries au plomb rechargeables sont extrêmement fiables et ne nécessitent quasiment aucun entretien.
