

Mbabane, Eswatini | October 2024 - GET vest Eswatini, co-funded by the European Union and Germany, and implemented by the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, has successfully concluded after two and a half years of operation. The country window, which started in April 2022 and was officially launched in October 2022, built on the ...

The policy brief presents a road plan for the Kingdom's Just Energy Transition. It seeks to link growth and development with Eswatini's Nationally Determined Contributions (NDC) pledge to generate 50% of its energy from renewable sources by 2030, as well as COP28's goal of transitioning from fossil fuels to renewable energy by 2048.

The overall goal for the Eswatini energy system is therefore to reduce dependency on electricity imports. Eswatini has set ambitious targets to increase electricity access for households from 80 percent to 85 percent by ...

The director added that the Eswatini Electricity Company (EEC) is working on a number of renewable energy projects, and the regulator, being the Eswatini Energy Regulatory Authority (ESERA), is also procuring from independent power producers. She said they were all informed by the master plan.

The changes are driven by Eswatini's desire to improve energy security, access to reliable, adequate, and affordable electricity, and the mitigation of potential detrimental impacts on the environment because of the growing energy demand. The Eswatini Electricity Company (EEC), a state-owned power utility, owns and

operates four hydro power ...

It was said at the launch that Frazium Energy's presence in Eswatini - on 50 ha of Swati Nation Land at Edwaleni - will create over 100 new employment opportunities and, during phase one alone, inject an estimated E1.5-billion into the local economy. The primary site will reportedly comprise a 25 Megawatts (MW) Solar Farm, a 25-50MW ...

Eswatini Energy Regulatory Authority is a statutory Energy Regulatory Body established through the Energy Regulatory Act, 2007 (Act No.2 of 2007). The Mandate of ESERA is the administration of Electricity Act, 2007 (Act No.3 of ...

Heavily reliant on neighbouring South Africa for almost everything, including most of its electricity, Eswatini is trying to become more economically independent, but poor governance, heavy state involvement and political unrest are inhibiting its potential.

The overall goal for the Eswatini energy system is therefore to reduce dependency on electricity imports. Eswatini has set ambitious targets to increase electricity access for households from 80 percent to 85 percent by 2022, through the rural electrification programme. The United Nations continues to stand in solidarity with the people of ...
