

The ESMC's letter set out three key measures the Commission should "urgently adopt" if it is to avoid a collapse of domestic solar manufacturing. The first asks the bloc to establish an EU-level buyout facility for accumulated ...

Ardagh Glass Packaging-Europe (AGP-Europe), a division of Ardagh Group, has secured a long-term virtual power purchase agreement (VPPA) with Rezolv Energy. The deal will provide AGP's European glass manufacturing operations with renewable electricity from the St. George solar photovoltaic (PV) project in Bulgaria from April 2026.

Reaching 215 GWdc by 2032, regional cumulative capacity is set to quintuple in the next 10 years. Spain will lead solar generation in the region, followed closely by Italy. Over the last year, Wood Mackenzie has incorporated more depth and detail on country-specific distributed solar markets in our quarterly regional European reports.

Meet 400+ asset owners, developers, managers and operators from leading energy producers and utilities: Gigawatts European of solar and wind assets will be represented at Utility Scale Solar and Wind Europe with 400+ decision makers in attendance. Interact with the value chain to expand your network and streamline your end-to-end portfolio development, management and ...

The ESMC said the key problem lies in an oversupply of heavily subsidised solar PV modules coming into European markets from China. It estimates there is a stock of approximately 140-170 million PV modules in European ports and warehouses, equivalent to 70-85GW of electric capacity.
