

Harbour Energy, a London-listed oil firm created through a merger between Chrysaor and Premier Oil, has decided to exit the Sea Lion oil field development in the Falkland Islands. The company has a 60 percent stake in the oil field, with Rockhopper Exploration holding the remaining 40 percent stake.

The asset, situated around 220km to the north of the Falkland Islands, was said to be the first commercially viable hydrocarbon discovery in the North Falkland Basin (NFB). In July 2012, Premier acquired 60% of Rockhopper's licence interests in the Falkland Islands, including the Sea Lion Development.

The wind power potential in the Falkland Islands is very good. In 2016 the islands generated 19 GWh of electricity. Of this 53 percent was generated by fossil fuels and the remaining 47 percent was generated by wind turbines. As of December 2021, one energy company on the Falkland Islands had already installed in excess of 100 wind turbines ...
