

Why is international trade important for PV cells?

Through the interaction of spatial patterns of PV cells international trade flow, the associations among regions have been strengthened and the development opportunities of PV industry have been expanded. This will also intensify the level of competition.

Does solar PV have a trade pattern in East Asia?

Yang et al. (2017) displayed changes in solar PV's core-periphery hierarchical trade patterns in East Asia. Based on previous results, Guan et al. (2020) proposed functional trade patterns, the optimal trade patterns measured and determined by network motifs, to estimate the potential PV trade flows effectively.

What is the spatial structure of PV cells international trade?

Nodes (countries and regions) and routes(trade flows) are two major metrics for the spatial structure of the PV cells international trade. Demand and supply of PV cells take place in each individual node. Consequently,the interactions amongst nodes are responsible for the formation of routes.

How can Korea improve its trade status in solar photovoltaic products?

Korea should continue to maintain the positive momentum of technological and scientific innovation,improve its technology,and optimize its products,thereby expanding its trade advantages,improving and upgrading its trade status,and striving to secure its position in the market of solar photovoltaic products.

What is the global PV trade based on?

The data on global PV trade used in this paper comes from the BACI-CEPII 2 Database,covering 251 global economies from 1996 to 2019. According to the division of the PV industry,the upstream is composed of crystalline silicon raw materials and the preparation of silicon rods and silicon wafers.

Do solar photovoltaics rely on the Chinese market?

With solar photovoltaics taking over recently,an in-depth look into their supply chain shows a surprising dependency on the Chinese marketfrom the raw materials to the assembled PVs. This article tackles the main challenges in the solar energy market and sheds light on the opportunities in that industry.
