Will China replace Jiangsu as number one offshore wind Province?

The rapid growth offshore wind capacity in Guangdong,Zhejiang,Fujian and Hainan is expected to shift the provincial ranking,potentially replacing Jiangsu as the number one offshore wind province within the next five years. What is China on track for?

Land-based wind turbines range in size from 100 kilowatts to as large as several megawatts. Larger wind turbines are more cost effective and are grouped together into wind plants, which provide bulk power to the electrical grid.

Shandong Dezhou Ling Dingzhuang Wind Farm is a 100MW onshore wind power project. It is located in Shandong, China. According to GlobalData, who tracks and profiles over 170,000 ...
