

The CyberPower SX950U-FC uninterruptible power supply (UPS) system provides surge protection for lightning-induced surges and other power events that can damage electronic equipment. This unit delivers enough battery backup to connected electronics during a utility power failure, so you can perform a graceful shutdown to protect against the loss of data and ...

CyberPower PowerPanel Battery Management for Windows is a server-based software, allowing users to remotely access through a web browser to monitor and manage a battery system. Working with CyberPower Battery Manager and Probes, the software provides detailed information on every battery, ensuring they are optimally charged and ready to provide battery ...

CyberPower BR700ELCD offers home and office users a reliable battery backup and safeguards office PCs, network communication equipment, and other electronic devices from surges, spikes, brownouts and other power incidents. Designed with GreenPower UPS(TM) Technology to improve UPS operating efficiency and to minimize its energy consumption, users can enjoy significant ...

A mini-tower UPS with line interactive topology, the CyberPower CST1300AL provides battery backup (using simulated sine wave output) and surge protection for desktop computers, workstations, networking devices, and home entertainment systems. The CST1300AL uses Automatic Voltage Regulation (AVR) to correct minor power fluctuations without switching to ...

Find the serial number on your CyberPower products. Every CyberPower product has a unique serial number (S/N) and they can only be 12 or 16 digits. The location of the serial number label may vary by different products, but you can find it on ...

A mini-tower UPS with line interactive topology, the CyberPower BL1250U provides battery backup (using simulated sine wave output) and surge protection for desktop computers, workstations, networking devices, and home entertainment systems. The BL1250U uses Automatic Voltage Regulation (AVR) to correct minor power fluctuations without switching to ...

A mini-tower UPS with line interactive topology, the CyberPower Intelligent LCD CST135UC2 provides battery backup (using simulated sine wave output) and surge protection for desktop computers, workstations, networking devices, ...

The CyberPower Intelligent LCD LE1000DG is a compact Battery Backup/ UPS (uninterruptible power supply) with line interactive topology. This model provides battery power and surge protection for desktop computers, workstations, networking ...

A mini-tower UPS with line interactive topology, the CyberPower LX1500GU provides battery backup (using simulated sine wave output) and surge protection for desktop computers, workstations, networking devices, and home entertainment systems. The LX1500GU uses Automatic Voltage Regulation (AVR) to correct minor power fluctuations without switching to ...

CyberPower M550L guarantees the best power protection for computers, workstations, NAS/Storage devices, and other IT equipment in hospitals and healthcare facilities during power outages. This product also provides battery backup, surge-protected outlets and EMI filter to safeguard your devices. The UPS features multifunction LCD readout to display information of ...

This unit delivers enough battery backup to connected electronics during a utility power failure, so you can perform a graceful shutdown to protect against the loss of data and damage to valuable electronics including computers, gaming consoles, and broadband routers. ... CyberPower SL750U Battery Backup UPS Systems. \$129.99. CyberPower ...

CyberPower SL700U guarantees power backup protection for IT equipment, such as computers, NAS, and storage devices. The product adopts standby topology with energy-saving technology to save UPS electricity costs. ... The product ...

A mini-tower UPS with line interactive topology, the CyberPower CST150XLU provides battery backup (using simulated sine wave output) and surge protection for desktop computers, workstations, networking devices, and home ...

A mini-tower UPS with line interactive topology, the CyberPower Intelligent LCD CST135XLU provides battery backup (using simulated sine wave output) and surge protection for desktop computers, workstations, networking devices, and home entertainment systems. The CST135XLU uses Automatic Voltage Regulation (AVR) to correct minor power fluctuations without ...

A mini-tower UPS with line interactive topology, the CyberPower BL1450U provides battery backup (using simulated sine wave output) and surge protection for desktop computers, workstations, networking devices, and home entertainment systems. The BL1450U uses Automatic Voltage Regulation (AVR) to correct minor power fluctuations without switching to ...

A mini-tower UPS with line interactive topology, the CyberPower GX1500U provides battery backup (using sine wave output) and surge protection for high end desktop computers, TVs, home theater equipment, gaming systems, and networking devices requiring active PFC power source compatibility. The GX1500U features an advanced multifunction control panel with a color LCD ...
