

Will Guam get 330 megawatts of solar power by 2028?

Workers could be seen at the site of the Mangilao Solar Project on Aug. 12, 2021. The Guam Power Authority wants to award two major contracts for solar farms in Dededo and Sånta Rita-Sumai, the first two in a series of projects which are anticipated to add a huge 330 megawatts of power to the grid by 2028.

Did Aegis Guam intercept a ballistic missile?

“During the test, the Aegis Guam System intercepted an air-launched medium range ballistic missile targeted off the coast of Guam,” Singh said. The test entailed the Aegis Guam System integrating with a specialized radar and vertical launching system.

Does Core Tech Solar have a legal dispute with Guam Waterworks Authority?

Commissioners did raise some concerns about the award to Core Tech Solar, as affiliate company Core Tech International is currently locked in a multi-million-dollar legal battle with the Guam Waterworks Authority. GPA needs approval from the CCU, before taking the contract awards to the rate-setting Public Utilities Commission for final approval.

Why is Core Tech suing Guam?

The matter is ongoing before the Superior Court of Guam. GovGuam along with GWA are suing Core Tech, in the hopes of revoking certificates of title that show the company owns the plant land. Core Tech has countersued, seeking \$220 million in back rent and damages for the property.

From the solar panels on the roof, to the inverter and battery storage system on your wall, our unmatched Sunnova Protect warranty covers all solar+battery storage system components, eliminating out-of-pocket expenses for system maintenance or equipment repairs or replacements, including labor and a 10-year roof warranty.

Consequently, investing in a solar energy system is likely to boost the value of your home on Guam. Research indicates that homeowners are willing to pay a premium for a solar-equipped residence. For instance, a study by Lawrence Berkeley National Laboratory found that, on average, solar installations increased a home's value by around \$15,000.

SolarEdge Designer is a free solar design tool that helps PV professionals like yourself lower PV design costs and close more deals. Learn more. ... Get the most out of the solar system with automatic electrical design calculation providing you with the best recommendation for highly efficient solar system planning. Including automatic ...
