Rural Areas of Guinea Bissau are set to receive electricity through off-grid solar technologies through a project called the Regional Off-Grid Electricity Access Project (ROGEAP). ROGEAP will be implemented by the ...

1. Calculate Your Power Load. If you haven't already, you'll need to calculate the total power you need from your solar panel system. The power load necessary for a home backup system will look much different from the energy consumption of a small van or camping trip.. Go through each device and appliance you want to run and check the instruction manual ...
