But remember, you are also getting a new roof with your solar tiles, so direct price comparison is slightly misleading.

How much do solar tiles cost in the UK?

Solar tiles in the UK cost between £13,000 and £16,200 for the average home while regular solar panels can cost between £2,500 - £10,500. Solar roof tiles come in a variety of designs and can replace a standard roof, saving you money on electricity. The most popular solar tile providers in the UK are Tesla, GB-Sol, and Solecco.

Are solar tiles expensive?

Unlike traditional solar panels, solar tiles double up as a roof covering or roof tile replacement, so they will naturally be more expensive than bolting solar panels onto an existing roof. Solar tiles also require a longer, more complex installation, installed by roofers rather than PV installers, increasing costs.

Are solar-powered roof tiles right for your home?

Solar panels come in various configurations but one of the most interesting forms is solar tiles. Solar roof tiles can be an aesthetically pleasing alternative to a standard on-roof system but they also have their drawbacks, such as high prices and lower efficiencies. Let's explore whether solar-powered roof tiles are right for your home.

How much power do solar roof tiles produce?

The power production of solar roof tiles relies on various factors, including the system's size, the solar cells' efficiency, and the amount of sunlight received. Solar roof tiles can generate between 10-63 watts of power per square foot. The total power output of a system will depend on the configuration and size of the installation.
