

## How much does it cost to buy a solar power generator

How much does a solar generator cost?

Good examples include the 6kWh Goal Zero Yeti 6000X, the 4.8kWh Renogy Lycan 5000, and the 5.1kWh BLUETTI EP500. Expect to pay \$5,000-\$8,000 depending on accessories, grid-tie equipment, and solar panel choices. Pre-configured solar generators that can store more than 6kWh of energy are expensive and relatively new.

How much does a 2kWh solar generator cost?

A basic home 2kWh solar generator will cost you between \$1,600 and \$2,000. You could probably power a couple of appliances, keep lights on and recharge devices with a 2kWh solar generator. Our favorite 2kWh solar generator is the BLUETTI AC200P - or upgrade to the AC200MAX, which can be extended by adding additional power packs.

How much does a home backup solar generator cost?

A home backup solar generator capable of powering most appliances, keeping your LED lights on, and keeping your electronics charged and running will cost between \$2,000 and \$10,000 depending on capacity, power rating, and included accessories. Let's look at how these choices will impact how much you'll spend.

How much does a generator cost?

There are plenty of brands willing to provide a generator on a temporary basis. HSS Hire, for example, provides petrol, diesel and portable generators - a 1.6kVA portable generator would cost around £76 for a day, or £110 for a week. Building material retailer Jewson also hires out portable generators.

Should you buy a solar generator?

Solar generators are advantageous for those looking to run devices and small appliances. They're a great source of backup power for a boating or RV camping trip because of their portability, plus they're clean and don't require you to keep lots of fuel on hand.

Is a whole house solar generator worth it?

It depends on your needs. If you just want to backup a few appliances, power the lights, and recharge your phone and other gadgets, then a whole house solar generator is worth it. It's FAR less expensive than setting up a home solar system with roof mounted panels, a battery bank, miles of wiring and so on.

But generally, while an average gas generator will cost you \$1000, the upfront cost of a solar generator will be about \$2000. Read more to know about the prices of various kinds of solar ...
