

What will XPO Logistics do for Iceland?

In addition, XPO Logistics will manage Iceland's temperature-controlled fleet of 320 tractor units and 450 trailers, and expects to create further operational efficiencies for Iceland by implementing an integrated inbound supply chain platform that leverages the retailer's supplier relationships.

Why is XPO a sustainable transport company?

Road freight transport contributes approximately 10% of the global total of CO2 emissions. Recognizing this, XPO is acutely aware of the importance of transitioning to sustainable practices. XPO provides a range of low carbon transport solutions, catering to the diverse needs of our customers and combatting emissions from all angles. These include:

What is XPO doing in 2023?

XPO has made significant investments in electric vehicles and continues to explore alternative technologies for heavier loads through in-house testing. In early 2023, we finalised orders for 100 EV trucks for our French fleet, which will be used to transport palletised goods as partial loads.

How many EV trucks will XPO have in 2023?

In early 2023, we finalised orders for 100 EV trucks for our French fleet, which will be used to transport palletised goods as partial loads. XPO leverages the potential of hydrotreated vegetable oil (HVO), B100, and other non-petroleum-based fuels derived from vegetable or animal sources.
