

Who is Ballard Power Systems Europe?

Ballard Power Systems Europe A/S is engaged in the development, sale and production of fuel cell technology systems. For several years, Ballard Power Systems Europe has been devoting considerable resources to the development of commercial products based on the fuel cell technology. The development has continued in 2019.

Where is Ballard Europe located?

Ballard Europe prides itself on having a complete value chain. Our European Competence Center is located in Hobro, Denmark. Ballard European Competence Center in Hobro, Denmark Here, we are active in fuel cell system development, production, applications engineering, and business development.

Who is Ballard Europe?

We are one of Europe's leading fuel cell companies, with 50 employees in Denmark mainly focused on R&D, engineering, manufacturing and service, plus a commercial presence in Germany, the UK, and France. Our plans are for continued growth of this essential footprint in Europe. Ballard Europe prides itself on having a complete value chain.

What did Ballard do for a living?

Ballard signs a long-term engineering services contract to advance Volkswagen AG fuel cell automotive research program. Acquisition of Dantherm Power (DK) which became Ballard Power Systems Europe. Deployment of 20 Ballard-powered fuel cell buses in Whistler, BC in conjunction with the 2010 Winter Olympics and Paralympic Games.

Is Ballard a stock?

Ballard listed on the Nasdaq Stock Market. Ballard fuel cell stack achieved a power density of 700 watts per kilogram. First fuel cell bus presented by Ballard in Vancouver, Canada. Collaboration agreement between Ballard and Daimler-Benz for the joint development of a compact, high power density fuel cell stack.

Who is Ballard European Competence Center?

Ballard European Competence Center in Hobro, Denmark Here, we are active in fuel cell system development, production, applications engineering, and business development. In addition, we conduct after-sales service support for all Ballard products in Europe. Currently, these products include:

SFC Energy AG, a leading provider of hydrogen and methanol fuel cells for stationary, portable and mobile hybrid power solutions, has completed the acquisition of selected assets of the stationary hydrogen fuel cell business in Scandinavia - including IP rights and customer contracts - from Ballard Power Systems Europe A/S (BPSE).
