

News and analysis about the demand of energy & grid management supply, grid modernisation and smart grid upgrades, distributed energy resources and storage. ... Smart Energy International is the leading authority on the smart meter, smart grid and smart energy markets, providing up-to-the-minute global news, incisive comment and professional ...

Smart grids present many benefits for both consumers and utilities, ranging from cost-effective electricity, improved reliability, enhanced grid management and integration of renewable energy. Despite these advantages, some utilities lag in recognizing the significance of smart grids, failing to grasp the implications of renewable intermittency ...

In order to reduce the impact of the intermittency inherent in a solar power plant, Ivory Coast is banking on electricity storage. As part of the 37.5 MWp Boundiali solar project being implemented by C&#244;te d'Ivoire Energies (CI-Energies) in the north of the country, the authorities are planning a means of storing electricity.

Group Management Team; Group organization; CESI History; Cesi Subsidiaries and Brands; ... Smart Grid Study in Ivory Coast. Smart grid study to improve the Cote d'Ivoire Grid. Area Manager. Simone Pasquini. Area Manager Africa. Info. YEAR. Country. Ivory Coast. Services.

In addition, GBE has also launched a call for projects (until August 31 st, 2021), on Ethiopia, Benin, Ghana, Ivory Coast, Mozambique, Namibia, Senegal, Uganda and Zambia, for a grant funding opportunity (of EUR1 million in total) for projects in sub-Saharan Africa targeting two specific energy access challenges: "increasing the ...

This is the case of the American investment fund Brookstone, which has decided to take the case to the Commercial Court of Casablanca in Morocco. A procedure that could further lengthen the delays in finding a solution. However, this project is of crucial importance in Ivory Coast, since it was intended to add 150 MW each to the national grid.

The Minister of Mines and Energy Gesler E. Murray has disclosed that the Management of the Liberia Electricity Corporation (LEC) has concluded the negotiations with La Cote d'Ivoire for electricity through the TRANSCO CLSG Transmission Line. He said the government along with its development partners are bent on ensuring that citizens enjoy ...
