

Who is ecobat battery?

Ecobat Battery manages the procurement and sale of energy storage solutions. We supply batteries for a wide range of uses, including automotive, commercial vehicle, marine and leisure, motorcycle and industrial applications.

Who is ecobat resources?

Ecobat Resources is the leader in the responsible recycling and production of resources essential to modern life, including lead, polypropylene, and other commodities. Ecobat Logistics manages the collection of end-of-life batteries as part of our commitment to supporting the closed-loop management and recycling of energy storage solutions.

Who is ecobat?

Ecobat is a world leader in the production of lead, lead alloys, and the recycling of lead batteries. Our vast network features 11 smelters across two continents with an average annual output of 840,000 tons of lead. Our production is matched by our lead recycling system which allows us to recover and repurpose over 99% of the metal.

What role does ecobat play in battery recycling?

From the recycling and production of lead used in energy storage solutions to the collection of end-of-life batteries and the distribution of new batteries, Ecobat plays an essential role in the closed-loop supply chain for responsible battery recycling (See Ecobat's Circularity Model diagram, page 6).
