

What does the Department of energy do in Lesotho?

The Department of Energy is committed to increasing energy access and ensuring security of energy supply in the country. The Department of Energy is tasked with promotion and implementation of renewable energy projects and programs. A website of the Department of Energy (DoE) in Lesotho with an Energy Management Information System (EMIS).

What is Repp doing with Lesotho's first solar-battery mini-grid?

In 2019, REPP extended a LSL 7m loan to IPWR to finance Lesotho's first solar-battery mini-grid at the village of Ha Makebe. This project became operational in 2021 and now services 215 households and businesses in the community.

What is Lesotho's new mini-grid?

The pilot mini-grid and those of the planned larger portfolio are solar PV hybrids with battery storage and limited LPG backup generation. The hybrid nature of the design is to ensure 24-hour, year-round electricity supply, including Lesotho's harsh winters.

Will Lesotho be able to pilot a hybrid solar PV mini-grid?

Successful pilot hybrid solar PV mini-grid in Lesotho paves way for a further 10 mini-grids that will provide first-time energy access to 30,000 people and clean power to seven health clinics.

Does Lesotho have a low electrification rate?

Lesotho, a landlocked nation surrounded by South Africa, has one of the lowest electrification rates on the continent, with about 62% of the population lacking access to electricity and with a rural electrification rate estimated at below 20%.

Is Lesotho launching a solar mini-grid project?

The second phase of a pioneering solar mini-grids project in Lesotho is underway following the completion of a pilot project funded by REPP in Ha Makebe village, north-east of Maseru.
