Solar Market Outlook in Bosnia and Herzegovina Bosnia and Herzegovina's energy sector has endured significant loss due to the low energy efficiency standards in the past. This was the case with both residential and commercial buildings, which resulted in the country's high energy expenditure. As part of the country's economic transition, they are also looking at switching to ...

In 2012, Bosnia and Herzegovina established the first solar power plant (SPP) in the site called Kalesija. This solar power plant generates a power of 120 kWh and the panels are distributed over 1200 m². Converted solar energy is sent to the Electric Power Industry of B& H. Its annual production counts 150,000 kWh of electricity.

Recently, solar and wind power plants have emerged but remain a small percentage of the overall energy mix at about 6 percent. According to a study conducted by the German government, BiH could generate up to 2000 MW of wind energy per year, primarily in the areas of Livno, Tomislavgrad, Mostar, and Trebinje.
