

The solar panels will generate around 6,500 MWh per year of clean electricity to be consumed onsite at Goodyear. Scheduled to come online by early 2025, the two solar DG systems align with Goodyear's established sustainability goals to move its manufacturing operations and processes to all renewable energy by 2040.

Luxembourg is on the right track to reach its objective with its green energy development support project, "Gr#233;ng relance fir L#235;tzebuerg ". Renewable energies are still on the rise within the European Union, which has set the goal ...

Did you know Luxembourg was among the EU countries to overachieve their 2020 renewable energy consumption target?. In January 2008, the EU committee published 20-20 by 2020 proposals regarding climate safety and energy renewability. These proposals included a 20% trimming of greenhouse gas (GHG) emissions and a 20% growth in the fraction of ...
