Ideally tilt fixed solar panels 13° North in Lilongwe, Malawi. To maximize your solar PV system's energy output in Lilongwe, Malawi (Lat/Long -13.9714, 33.792) throughout the year, you should tilt your panels at an angle of 13° North for fixed panel installations.

Lilongwe - June 2024 - As the sun sets in most villages in Malawi, the dawn of darkness is also the dawn of anxiety for women, men, children, and particularly school-going children. Only 23% of Malawi's population has access to electricity. Many households must rely on battery-powered torches, candles, and kerosene lamps for lighting inside the house.

Because of Malawi's unpredictable electricity, power inverters have become a way of life. Purchasing a DC to AC power inverter, inverter charger, or solar invertercharger might transform a Malawian family's or business's way of life, as they are frequently subjected to three to four hours of power outages every day.
