Maxima product has all the features of the MultiPlus, plus an external current transformer option to implement PowerControl and PowerAssist and to optimize self-consumption with external current sensing (max. 32A). ... Solar Panel ...

Maxima offers MultiPlus 12/800/35-16 and Can be used on off-grid as well as grid-connected PV. Power Control mode to limit the power draw from the generator/grid source which charges the batteries Shop Now! ... Solar Panel DS5 72-415M. 415W / 49.77V / Mono. AED: 310.00. in stock. Charge Controller. Smart Solar MPPT 250/60 VE Tr. 12/24/36/48V ...

Hi, I've got a Victron Multiplus-II 48/3000. It's connected to Cerbo. I have comms setup (and functional) to 2 x LiTime 48V (51v) 100aH ComFlex batteries. If I understand right, I'm using DVCC which leverages the battery comms and BMS to control charging, battery cut off, recovery etc. This is what LiTime's manual says about those voltages:

I want to purchase a Victron Multiplus 48/3000 unit to use for backup power in times of load-shedding. I am thinking of later linking a solar panels and Victron 150/60 charge controller. Do I rather need to go for the MultiPlus II unit if I want the option of power assist from the solar system through day time to save on electricity bills?

3 ???· Good day everyone. I have a Victron Multiplus II 48V - 8000VA - 110A, cerbo gx, and 2 batteries of 280 A/h. I want to increase the power of my system by 4-5 kW, and connect solar panels. Is it realistic to do this with Victron Multi RS Solar 48V - 6000VA - 100A - MPPT 450/100? Because with parallel connection, you will probably need Multiplus II 48V - 8000VA - 110A and ...
