Absolutely, it's always best to have myenergi products installed together. You can prioritise where the energy goes, eddi and zappi will work together to try and consume as much free energy as possible. ... Varisine technology ensures that the power from the eddi is the same quality as that of the electricity that enters your property from ...

1 ??&#0183; &quot;Post 47 minutes ago #1 2024-12-20T10:32+00:00 Noticed my scheduled immersion boost ...&quot; &#183; &quot;Post 41 minutes ago #2 2024-12-20T10:39+00:00 If your Eddi is determining EV ...

The displays on the Eddi and Zappi are also skewed, they don't display the correct values for solar PV generation, house consumption and grid consumption across the Eddi and Zappis.IMG\_20190928\_201938.jpgIMG\_20190928\_200529.jpgIMG\_20190928\_200501.jpgIMG\_20190928\_200450.jpgIMG\_20190928\_200445.jpg

1 ??&#0183; Looking at Myenergi dashboard there's the dreaded yellow triangles, looking at Eddi specifically there's several blocks of yellow lines. How can the Eddi's failure to communicate affect the Zappi charging? Or does it better indicate where any problem might lie? ... If your Eddi is determining EV charge issues, then it sounds like your ...

It works well with Eddi relay PCB. The wire is 1.5 meters. It came quickly first class (despite Royal Mails recent strike nonsense). &#163;9.99 all in. The comprehensive menus for setting up the relay switching rules and sensor thresholds etc. magically appear in the Eddi menus when you install (plug in the ribbon connector) the relay expansion board.

My Eddi (200 litre tank) consumes just 1KWh per day, what water temperature is your thermostat set to. Beware of turning it too much as you'll get near boiling water. Nearly 3kWh seems reasonable energy input to me, it's the same as running the immersion for 1-hour before the Eddi was used.

eddi. Zelf opgewekte stroom terugleiden naar uw huis. eddi+. Ga tot 9kW voor warmteopslag op 3-fasen. libbi. Libbi is een modulair batterij-opslagsysteem dat zich aanpast aan jouw behoeften. harvi. Bespaar tijd, geld & lelijke bedrading. extra"s. Beheer en controleer uw energie van overal. merchandise. Trek de nieuwste myenergi merch aan ...

Alongside this I opted for some myenergi devices to maximise the benefits of the system, inc an eddi. I have some questions around the myenergi eddi... Since having the solar PV installed I've noticed a huge amount of energy is being exported to the grid (50+ KWh in just a few days). My original goal with this system was to also heat our hot ...

The MyEnergi eddi+ is an advanced 3-phase energy diverter, designed to maximise the use of your self-generated solar or wind power. By diverting excess energy to heat water or power ...

Car charging; Heat water with solar; Battery storage; Customer Support; Helpful guides; For business. ... an eddi not just a power diverter but the start of your brand new energy management system with full visibility on the eddi display and myenergi app. Order eddi+ online today. eddi+ ...

Bring an eddi into your home and you can take full advantage of the 100% green energy generated by your solar PV or wind generation system. Instead of feeding it back to the grid, your energy generation investment becomes more efficient because our intelligent eddi product feeds energy back into your heating systems.
