

What is Nicaragua's energy supply?

"This gives us a guarantee that the project will be carried out in the best way and will ensure its best performance." Around 60% of Nicaragua's total energy supply is drawn from renewable sources, with biomass (41.8%) accounting for the largest share of generation as of 2022. The remaining 40% is supplied by oil imports.

What is the CNE 'indicative plan' for electricity generation in Nicaragua?

In 2003, the CNE elaborated the "Indicative plan for the generation in the electricity sector in Nicaragua, 2003-2014", which aims to provide useful insight for private investors to orient their decisions on technologies to implement in the country.

Does Nicaragua need a new generation power plant?

Maximum demand has increased in Nicaragua at an annual rate of about 4% since 2001, which has led to a low reserve margin (6% in 2006). Furthermore, demand is expected to increase by 6% per year for the next 10 years, which increases the need for new generation capacity.

Does Nicaragua have geothermal power?

The Maribios Range is part of the Pacific "Ring of Fire" and contains several active volcanoes. The government estimates Nicaragua's geothermal potential to be 2,000 megawatts. Nicaragua's National Electric Transmission Company (Enatrel) seeks to transform the country's energy mix by focusing on renewable energy with its 2022-2037 expansion plan.

What projects are being implemented in Nicaragua?

The Inter-American Development Bank (IDB) has several projects under implementation in the electricity sector in Nicaragua: In October 2007, the IDB approved US\$350,500 for the Support to Power Sector Investment Program. In June 2007, a US\$12 million loan was approved for the National Transmission Strengthening for Integration SIEPAC project.

Is there a wind power project in Nicaragua?

In December 2005, two wind-related technical cooperation activities were approved, one for the Development of Wind Power Generation in Isolated Systems and another one for a Wind Power Park Feasibility Study in Corn Island. The World Bank has currently one Off-grid Rural Electrification (PERZA) project under implementation in Nicaragua.
