

# Photovoltaic panel unpacking tips and tricks

Can you walk on a LONGi Solar PV module?

DO NOT stand or walk on PV modules. Prior to beginning installation, review the Installation Manual for LONGi Solar PV Modules. Do not carry a module alone; always use two people to lift and carry. Do not drill holes in the frame of the module.

How do I know if my PV modules have been shipped?

Before you unpack your modules, check the shipping label to ensure you received the right modules. Once you unpack your modules, check the module frame serial number and model label against the shipping label. The serial number is the unique identifier of each PV module.

What should I do if a PV module is damaged?

DO unstack the pallets immediately if the pallet or packaging is compromised, wet or damaged. DO use stable, self-standing structures or devices, or other pallets for support. DO NOT unpack the module pallets from a wet, soft or inclined area. DO NOT use sharp, unstable structures for support. DO NOT stand or walk on PV modules.

Are large-format solar modules a good investment?

One of the biggest trends in solar modules is the arrival of large-format modules. The benefits of these mega modules have been widely reported, such as higher power ratings, reduced amount of balance of system (BOS) and electrical BOS components, lower installation costs and greater reliability.

How to unpack a module?

The long side of the module to be unpacked needs to be close to a solid support for about 15-20cm distance, the support could be a wall, rack or another unpacked module box of the same type, and then use scissors to cut all the packing strap of the outer box. Remove the top cover of the box, and then remove the carton by lifting it.

How many people should carry solar modules?

And when it's time to start moving the solar modules to be installed, always have two people lift and carry each module. This safety recommendation is imperative as the heavier, large-format modules--which weigh 70 to 80 lbs -- become more prevalent at utility-scale project sites.
