

The Pitcairn Islands are a group of four near-pristine small islands which can claim to be some of the most remote islands in the world. Pitcairn, with a land area of just 4.5 km<sup>2</sup>, is the only inhabited island of the four and has a population (in 2011) of about 60. The islands are located in the crystal-clear waters of the central South Pacific at the south-eastern extreme ...

The Pitcairn Islands are a group of four volcanic islands in the southern Pacific Ocean that form the sole British Overseas Territory in the South Pacific. The four islands - Pitcairn proper, Henderson, Ducie, and Oeno - are scattered across several hundred miles ...

[Pitcairn Pulau] Yesterday we welcomed a team from the ?? RSPB to #Pitcairn ?? for a pit stop before their heading up with islanders on an expedition to our UNESCO Outstanding Universal Site, Henderson Island. ?  
...

Various forms of evidence show the earliest settlers of the Pitcairn Islands were Polynesians who occupied Pitcairn and Henderson for several centuries until the islands were abandoned: Henderson most likely before the 16th century and Pitcairn in the 17th or early 18th century. The islands were uninhabited when they were discovered by Europeans.

Discovery of Pitcairn Island . Captain Philip Carteret first spotted Pitcairn Island in 1767 but couldn't land due to rough seas. He miscalculated its location, marking it miles away from its true position. Years later, Captain Cook showed some interest, but it wasn't until the Bounty mutineers arrived in 1790 that the island gained attention.
