

Who is energy solutions Seychelles?

Welcome to Energy Solutions Seychelles - Leading solar energy company in the Seychelles We supply and install high quality solar energy systems and solar hot water products in the Seychelles. Our aim is to provide reliable technologies including photovoltaic panels and dependable installation service. Why Choose Us Most experienced

Why choose Seychelles solar energy?

Local Seychelles experience Mahe, Praslin, La Digue and outer islands Certified by Seychelles Energy Commission Approved by PUC Technical staff qualified in solar energy & energy efficiency Quality renewable energy products Warranty & Certification Best price Optimal performance Best return on investment Solar Energy PV Systems

How much does solar cost in Africa?

Stand-alone solar PV mini-grids have installed costs in Africa as low as USD 1.90 per watt for systems larger than 200 kilowatt. Solar home systems provide the annual electricity needs of off-grid households for as little as USD 56 per year, less than the average price for poor-quality energy services.

How does solar PV work in the Seychelles?

Currently, Seychelles has a net metering policy where electricity produced by your solar photovoltaic PV systems is recorded to a separate meter. PUC then credits your electricity bill at the end of each month. Further details on how solar PV works in the Seychelles please see our Frequently Asked Questions page.
