

How much will Puerto Rico spend on solar & battery storage?

SAN JUAN, Puerto Rico: The U.S. Department of Energy announced on December 12 that US\$365 million will be allocated to install solar and battery storage systems in homes and healthcare centers across Puerto Rico.

Where will solar panels be made in Puerto Rico?

Aguadilla, Puerto Rico - Great Lakes Solx PR, LLC ("Solx"), a minority-owned solar panel manufacturing company, has announced plans to establish the first solar panel manufacturing facility in Puerto Rico. The company will operate from the 65-acre Hewlett Packard (HP) Campus in Aguadilla, with commercial operations expected to begin in April 2025.

How much money will Puerto Rico spend on a solar system?

Of the total funds, up to \$190 million will go to Puerto Rico's Housing Administration and a private company to finance solar and battery systems in public housing common areas and subsidized multifamily housing properties. An additional \$175 million will be directed toward healthcare and dialysis centers.

Is Puerto Rico a leader in solar energy adoption?

Puerto Rico is recognized as a leader in solar energy adoption, driven by the ambitious goals outlined in the Puerto Rico Energy Public Policy Act (Act 17-2019) and the U.S. Department's significant investments under the Inflation Reduction Act since its enactment.

Why should Puerto Rico invest in solar panels?

These positions will enable Puerto Ricans to participate in the fast-growing renewable energy industry, offering long-term economic stability. The Governor of Puerto Rico, Pedro Pierluisi, welcomed the project and stated: "Puerto Rico offers an ideal location and talent pool for solar panel manufacturing."

Why should Puerto Rico invest in solx solar?

The Solx facility will play a pivotal role in helping Puerto Rico achieve these targets, producing up to 1.2 gigawatts of solar panels annually to support local projects and broader markets across the mainland United States.

I live in Puerto Rico, where corruption and scams are rampant, and the costs of solar systems are 2-3X that in the 50 states. I've tried four different independent guys all more worthless and dishonest than the last. And the big companies won't work with existing equipment and won't even talk to you if you're not interested in a \$25K system.
