

Generally speaking, no form of energy production, is capable without some intervention in nature. The best any of us can do is to choose between large and small forms of intervention. ... assuming that watercourse conservation is taken into consideration. The particular value here lies in decentralisation; power is available "on the spot ...

This redesigned

Territories of the United States are sub-national administrative divisions and dependent territories overseen by the federal government of the United States.The American territories differ from the U.S. states and Indian reservations as they are not sovereign entities. [note 2] In contrast, each state has a sovereignty separate from that of the federal government and each federally ...
