

Any fan of Star Trek knows the drill: An enemy ship attacks, the red alert blares, and the shields go up. Back in the real world, a team of physicists has now shown that such deflector shields are possible and could help protect astronauts from potentially lethal radiation as they travel to the moon, Mars, or beyond.

Salt River Project announced it has signed a contract with a subsidiary of NextEra Energy Resources to add a 100-megawatt (MW) battery storage system to the existing 100-MW solar plant, Saint Solar, located in Coolidge, Ariz., which is currently serving SRP customers. The 100-MW battery, expected to be operational in June 2023, will provide four...

How much does solar cost in Saint Helena, CA? Based on the latest data from the EnergySage Marketplace, the average Saint Helena, CA homeowner needs a 7.5 kW solar panel system to cover their electric bills. That'll set you back about \$19,191 before incentives. Need a bigger (or smaller) system to offset your electricity use?
