A native of St. Lucia, Dr. Emsco Remy has a passion for providing eye care to all St. Lucians. He was one of the pioneers in complete eye care on the island, and introduced cutting edge technology, including laser surgery to St. Lucians. He still retains a thriving practice and has performed many operations to correct squints and cataracts.

In this blog post, we explore the myriad advantages of installing solar PV systems in St. Lucia with Eco Carib, paving the way for a cleaner and more energy-efficient island paradise. 1. Abundant Sunshine: The Ultimate Renewable Resource. St. Lucia, blessed with a tropical climate, boasts an abundance of sunshine throughout the year.

The 3MW solar farm meets about 5% of St. Lucia's electricity demand and will reduce the volume of fuel purchased by LUCELEC by about 300 thousand gallons per year. LUCELEC uses approximately 20 million gallons of fuel per year. The solar farm builds on the work LUCELEC has been doing with grid-tied roof top solar PV systems since 2009.
