

What is a street light pole bracket?

It is used for assembling the light mounting pole to the LED. The other end is affixed on the street light pole and is called the bracket base. The light pole bracket is mainly composed of flat steel and steel tube, both of which are new and do not come in any recycled form.

What types of brackets are available for a flood / street light?

Column spigot adaptors & reducers, Amenity post top brackets, Flood light brackets, Highway brackets & Outreach Arms, plus bespoke designs available. We manufacture a wide range of galvanised lighting brackets to ensure your Flood / Street or Amenity light is securely attached to the street lighting column / wall.

What is solar LED lighting?

Solar LED lighting is a cost-effective and eco-friendly way to light up streets, outdoor areas at home and businesses. It utilises the sun's energy to power LED lights and provides clean and reliable illumination in areas without access to electricity.

How do I choose the right lighting bracket?

In order to correctly specify / purchase the correct lighting bracket you will need to know the column diameter / column spigot size and maximum head load of the column. A selection of our most popular lighting brackets are listed below. However, please contact our sales team for further information and technical support. You may also like...
