

Two international consortiums plan to invest a total of EUR 160 million in two solar power plants in the municipality of Sokolac in Bosnia and Herzegovina (BiH). At the same time, the Central Bosnia Canton has invited bids for a concession for two photovoltaic power plants in the municipality of Bugojno.

Using silicon for anode material has long been an aspiration because of its ability to store up to 10X more charge than graphite. Sila was the first company to dramatically reduce swell and safely harness the powerful properties of silicon for commercial use in lithium-ion batteries with our nano-composite silicon.

2 Scaling-up Solar PV in Bosnia and Herzegovina October 020 BOSNIA AND HERZEGOVINA COUNTRY PROFILE -- KEY COUNTRY DATA Population 3,286 million (est. 2020) 1 GDP per capita (2018) 6.065 USD per capita (2018)2 Electricity consumption per capita (2018) 4,045 MWh/year3 Solar resource quality (insolation) 1,100 - 1,500 kWh/m2/year Range of current ...

Bosnia and Herzegovina also maintains democratic features, including the de jure division of competencies among the branches of government, deeply decentralized state structures, regular elections, and the existence of independent media (albeit under political influence). In sum, the resulting model is a hybrid regime with a mix of autocratic ...

Sila, a next-generation battery materials company, has launched new Battery Engineering Services to support the transition to advanced anode materials in consumer ...

Japanese conglomerate Panasonic has inked a deal with US start-up Sila to procure silicon for use in electric vehicle (EV) batteries. Panasonic is the largest battery manufacturer in North America and a supplier to major ...

Sila Nanotechnologies, Inc. is an American battery manufacturer that produces lithium-silicon batteries using nanoengineered silicon particles. The company creates battery materials to replace traditional graphite anodes with a silicon-dominant composite material, in order to increase energy density. The company is building a factory in Moses Lake in Washington state.

Sila Nanotechnologies Stock does not trade on public stock exchanges. In order to sell Sila Nanotechnologies shares you need to work directly with the company or with a secondary trading marketplace like Nasdaq
