

How many smart meters will Mexico install in 2025?

Mexico is targeting to install 30.2 million smart meters between 2015-2025, reported Technocracy. The efforts made to enhance Mexico's grid systems have forced CRE to consider participation in regional and international organisations to ensure its grid system is in line with international smart grid standards.

Does Mexico need smart metering?

The country's single state-owned utility Comisi#243;n Federal de Electricidad (CFE) is looking to smart metering and other smart grid investments to lower non-technical losses and achieve operational efficiencies. There are a number of local vendors well positioned to serve Mexico's large-scale smart grid projects.

How many smart meter deployments are there in Mexico?

The research report indicates that Mexico has begun the process of selecting vendors for a total 30.2 million smart meter deployment between 2015-2025.

Does Mexico have a smart grid?

Following the launch of the country's smart grid framework by the energy regulator, Comisi#243;n Reguladora de Energia in 2014, players in the Mexican energy sector have engaged in significant efforts in trying to enhance the country's grid infrastructure.

How many smart meters are there in Mexico?

According to PRODESEN 2019-2032, 2 million smart meters had been installed in Mexico by the end of 2018 which represents 4.54% of the total number of meters in Mexico. CFE's goal is to have circa 6 million of smart meters by the end of 2022 and 25 million smart or digital meters by 2025.

Will Mexico invest \$10.9 billion in smart metering?

The \$10.9 billion investment is expected to be channelled in the country's smart grid segments between 2015 and 2025. Ben Gardner, president of North East Group said the \$10.9 billion will play a major role in ensuring that Mexico succeeds in deploying a large share of smart meters required to equip all consumers with the new metering system.

SENTINEL meter, Itron Mexico -- (METERING) -- March 9, 2007 - The Comisi#243;n Federal de Electricidad (CFE), Mexico's largest electricity utility, has placed an order for 25,000 SENTINEL solid-state electricity meters from Itron. CFE covers the whole of Mexico, with more than 20 million customers and 163

power-generating plants. The agreement represents ...

Before SmartEnergy, the average monthly bill was \$122. After installing SmartEnergy, the following month's bill was reduced to \$21.57, marking a decrease of nearly 82% without changing appliance use. Annually, this amounts to a saving of over \$1200 (\$1205.16 precisely), which is quite significant.

Al seleccionar el plan 100% renovable de SmartEnergy, el cliente promedio de Texas compensa miles de libras de CO2 al año. Los nuevos clientes también tienen un árbol plantado en su honor a través de la Fundación Arbor Day. Hasta el momento se han plantado más de 100,000 árboles gracias a los clientes de SmartEnergy.

Smart energy porque... Hacemos posible el uso eficiente, ahorro y generación de energía a través de equipos y servicios inteligentes para lograr de forma eficiente el almacenamiento, ahorro y generación de energía a través del sol de forma fiable, segura e inteligente como lo exige nuestra actual norma en México.

Smart Energy International is the leading authority on the smart meter, smart grid and smart energy markets, providing up-to-the-minute global news, incisive comment and professional resources. About Advertise
